2. The registrar reported yesterday that 37 new employees were scheduled for the next BIC (I). This will be the maximum number we can take unless a larger lecture room than that in Wing "B" is available. is looking into the possibility of our using the auditorium in T-31 for the first two weeks of this course. If that room is available we could take up to 60 trainees in the August class. Beginning the third week we would move the class to Wing "A", since the July group would have completed the course.
